.....

IMPORTANT RECORD - If found please return to:

.....  
.....  
.....  
.....

This training record &Log Book is intended to encourage Dive Education and provides a means of recording all diving achievements and training records. Write neatly and print for legibility. This book will reflect your training and your entire diving background. Record all your achievements to date. This record should accompany you to all diving activities. Entries recorded on the spot are more accurate. Keep a duplicate record in a separate location. This will prevent loss of important information. This record is also designed for quick reference in the event of a diving emergency.
